

Yearbook/Computer Applications

1 or 2 Semesters—Grade Levels 10-12

Semester 1--Create the yearbook after learning various computer tasks. Scanning, cropping, picture taking, uploading, page creation, etc.

Semester 2--After completing all 80 pages of the yearbook we move onto other computer applications. Some of the other applications we work with are Smultron, Dreamweaver, I-Movie, I-DVD, Album Creations, Etc.
